

JIIT NOIDA

Master of Computer Applications (MCA) Programs

Admission Procedure and Schedule - 2024

1. **About the Programs:** MCA program will provide in-depth knowledge and specialization in various areas of computing providing opportunities in multinational corporations (MNCs). The MCA degree is internationally recognized, providing the flexibility to work in various countries and global IT markets. MCA Curriculum is well designed to align with industry standards and best practices so that graduates will be well-prepared and relevant to the current needs of the IT industry. The curriculum consists of core courses (theory and labs), elective courses and dissertation/ project.

With an MCA degree, career opportunities as software architect, software developer, system analysis, database administrator, Data Scientist, Project Manager etc or in research collaborations can be pursued. With the knowledge and skills gained through an MCA program, candidates can even choose to start their own IT-related business or venture into entrepreneurship.

2. **Eligibility Criteria:**

- (a) Passed BCA / bachelor's degree in Computer Science Engineering / Information Technology or equivalent Degree or passed B.Sc./ B.Com./ B.A. / B.S /B.Voc. with Mathematics at 10+2 Level or at Graduation Level. Obtained at least 60 % marks (55% for SC/ST) in the qualifying Examination.
- (b) Candidates must secure pass grade in all subjects in their qualifying exam at the time of registration.
